LIFE
SUCCESS
CLUB
Becoming Enriched, Empowered & Incredible

It's not where you start, it's where you finish that counts...

It is not what you do once in a while that counts - it is what you do consistently. As human beings we live our life through a series of habits. Unfortunately some of these habits are inappropriate habits that hold us back from what we really want from life. For example - smoking, procrastination and lack of self motivation.

The 3 main things that are keeping you from what you want in life are **Knowledge, Courage & Money**. In order to get the rewards you want in life you need to get rid of some of your old habits, and take on board some new successful habits. The new habits will give you the momentum and drive to propel you forward. This is what the Life Success Club will do for you.

EMPOWER and ENRICH YOUR LIFE

No matter where you are in life and what your circumstances are, if you are wealthy or financially hurting, healthy or overweight, in

a great relationship or unhappy, we all want to evolve to something better. We all want more.

What makes the Life Success Club so powerful is it teaches you to develop your 'Success Muscles' by creating consistent application and giving you the power to change yourself.

So is it suitable for you? Well that all depends on if you are completely happy, comfortable and satisfied with your current life OR **if you want more!**

The Kurek Ashley Life Success Club gives you incredible results!

The Life Success Club is designed for people from all walks of life to give you the opportunity to experience a full year of personal coaching with Kurek. The beauty of this particularly unique club is the convenience - listen to your CD in the comfort of your home, or as you are driving in your car and then log on to Kurek's Special Members Only site online when you are at home, on your way to your next business meeting or vacationing on the beach of Hawaii. It is simple, cost effective and it works.

Over the 12 months you will receive 1 CD per month that covers strategies and tools to personally and professionally develop your life across a wide base to new levels. Each month is a specific topic and will include action steps you will be responsible for taking. From the very first program where you will learn how to start every day charged with peak performance enhancement tools and find out where you currently are and where you want to go, you will set the standard for all the programs to follow.

Your new habits will be created by doing something consistently for 30 days, this is why you only have 1 CD per month. You will master that particular strategy or perhaps sharpen up that skill you already have and then you will have created a new habit. When you graduate at the end of the month you move onto the

next CD, which by then will have arrived at your door. Imagine creating the momentum and results in your life for investing just 1 hour of your time every month.

Enriched
Empowered
Incredible!
